

Cookie Policy

1. Introduction & General Statement

- A. Operational Tracking: Golden Trader Ltd (hereinafter referred to as the "Company", "we", or "us"), a Limited Liability Company validly incorporated under the laws of Saint Lucia, utilizes cookies, tracking pixels, local browser storage tokens, and web beacons across golden-trader.com and [://golden-trader.com](https://golden-trader.com) (collectively, the "Online Facility").
- B. Core Purpose: These tracking data protocols are deployed exclusively to optimize platform navigation, secure login environments, manage user registration states, and ensure a bug-free client area interface.

2. Strict Definitional Categories of Cookies Utilized

To protect user transparency, the Company categorizes its functional site cookies into three distinct structural operational blocks:

- A. Strictly Necessary Cookies (Mandatory): These are security and session-state cookies required for the basic functionality of the platform. They store your temporary user tokens when you cross between your registration page, email confirmation steps, and your secure trading portal dashboard. Deactivating these cookies will break the account opening funnel and disconnect our MT5 live account creation systems.
- B. Performance & Analytical Cookies (Anonymized): We utilize basic analytics packages to evaluate site traffic distribution, page load speeds, and geographical signup velocity. All data captured by these analytics scripts is completely aggregated and anonymized; no personal data, passport numbers, tax details, or MT5 balance numbers are ever exposed.

3. Data Privacy Isolation and Non-Marketing Enforcement

- A. Zero Cross-Border Advertising Tracking: Unlike traditional marketing-heavy platforms, the Company does not utilize tracking cookies for behavioral target marketing, retargeting campaigns, or third-party data broker monetization. Your interaction logs inside our trading platform are strictly confidential.
 - B. Browser Control Autonomy: The Client maintains the absolute right to restrict, filter, block, or delete cookie histories directly through their browser software settings (Google Chrome, Apple Safari, Mozilla Firefox, etc.). However, you explicitly acknowledge that blocking cookies may block your access to [://golden-trader.com](https://golden-trader.com), preventing you from submitting verification data, requesting withdrawals, or depositing funds.
-
